EDUCATION

- **Audisankara college of engineering and technology**,Gudur **CGPA: 9.0**
-BTech (Computer Science and Engineering),2021-2025
- **Sri vema junior college**,Naidupeta **CGPA:8.9**
-Intermediate(Mathematics,physics &chemistry),2019-2021
- **Jack and jill E.M school**,Naidupeta **CGPA:9.3**
-SSC,2018-2019

WORK EXPERIENCE

- **Web Developer Intern, Teachnook | Bangalore, India** **SEP-OCT,2023**
-Developing web pages
- **Web Developer Intern, Codesoft | Kolkata, India** **JUL-AUG,2023**
-Developed a Landing Page
-Developed a Portfolio Page
-Developed a Mathematical Calculator

PROJECTS

•CONNECTING VOLUNTEERS TO NPO

-Background: In today's world, many non-profit organizations (NPOs) struggle to find reliable and committed volunteers to support their initiatives. While there are numerous individuals eager to volunteer, there is often a disconnect between volunteers and NPOs due to lack of awareness, difficulty in finding suitable opportunities, and inefficient matching processes.

-Developed a Android App which connects the volunteers with NPO

•BRIDGING THE EDUCATION GAP WITH ONLINE LEARNING

-Problem: Rural students are at a distinct disadvantage due to the lack of accessible, high-quality educational resources. Developed a web application which gives easier access to the required resources to the rural students

TECHNICAL SKILLS

- Languages: C, Java, Python, Javascript
- Full Stack Development : HTML, CSS, Javascript
- Database: Mysql
- Data Analysis: Numpy, Pandas, Matplotlib
- Developer Tools: VS Code, Git

CERTIFICATIONS AND AWARDS

- Consolation prize in 24-Hour Hackathon.
- "Software development and product development" from NSDC.
- "Web development" course from Teachnook.
- "privacy and security in social media" from NPTEL.
- "Analyzing and visualizing data with power BI" from DavidsonX.
- "python with DSA" from IBM.
- "Python with Data structures" from Value laden.
- "Basics of ML & AI" from Raspberry Foundation.
